 GRUPOMIRANTI

LIVELY OFFICES

Miranti, which has been operating since 2001 in the manufacture of corporate furniture, has built the experience, qualification and modern structure throughout its journey which make it a relevant company in its sector nowadays. Its well-developed industrial facilities ensure the company is seen as a model of quality and excellence.

Its furniture, in turn, is developed under the greatest quality standards so as to allow vast possibilities of customization due to its versatility and modular design. Such characteristics, together with Miranti's innovative DNA, guarantee good acceptance and strong representativeness of its product in market performance.

The solidity and quality that its products present are not Miranti's only differentials. It counts on its own carrier integrated with its factory, which ensures agility and punctuality even in the delivery of large orders. The company also constantly invests in innovation and staff qualification, as well as permanent commitment in seeking for improving its products and services.

Such characteristics, however, are not the only ones to guide Miranti. Since the beginning, the company has developed entire rooms which bring delight to work by producing not only furniture, but also lively offices.

SLIDING FILING CABINETS

The sliding filing cabinets are modular cabinets made of steel and which move on track, and their operation takes place either mechanically or electronically. Such a system ensures users great room for storage through minimum effort to move the cabinets.

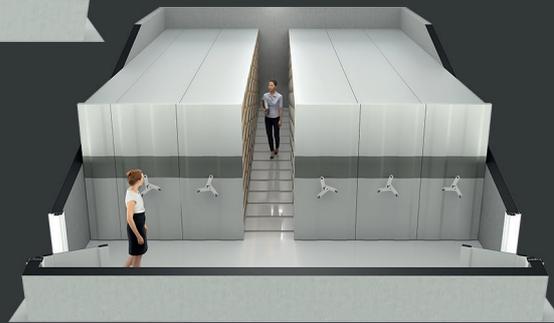

Due to their design and structure, they provide various internal settings on their shelves, both by individual setting of each shelf and the use of accessories, which allows the efficient use of their internal space.

Their modular structure allows the resetting of width, height and depth, or the addition and change of components as many times as needed.

SLIDING FILING CABINETS

Benefits

- Better use of space in the room.
- Reduction of the used area by up to 70%.
- Possibility of shelf customization, with the use of accessories, which also increases the efficient use inside each module.
- Greater organization within your corporate environment, thus boosting productivity.
- Modular units, offering greater flexibility when assembling it in your room.
- Ease to handle the files.
- Unique design.
- Safety improvement to your documents.
- Greater comfort to users.
- Excellent cost-benefit ratio.

With traditional cabinets, you have less flexibility in efficient use of your cabinet and a much larger volume of occupation of your physical space.

70% **SAVE UP**
TO OF YOUR
OFFICE SPACE

With Miranti's sliding filing cabinets, your space is used in a much more rational way, thus bringing new possibilities for your rooms and providing real saving to your business.

2x **MORE SPACE**
IN STORING
MORE ORGANIZATION

In some cases, you can double the storage capacity in a room where a traditional storage system is being used, especially when using the accessories available for the cabinets.

SLIDING FILING CABINETS

For greater convenience and organization of your documents and materials to be stored, the internal space of each cabinet can be set in various independent ways. All this is in order to guarantee that each and every customer's needs are met. Miranti's Accessory Line possesses Hanging File Folders and Folders With Tabs, which will optimize the search for documents.
